# NASFAA's 2013-14 Webinar Package

NASFAA's Webinar Package provides an easy and convenient way to implement student aid requirements that directly impact your aid office. Each webinar is presented by NASFAA staff and experienced student aid professionals who understand the challenges you face every day in the trenches. Each webinar features a live Q&A session to answer your specific questions and discuss common problems with colleagues so you don't have to go it alone.

All NASFAA members will continue to receive free, live webinars throughout the year on critical, timely legislative and regulatory issues, including Notices of Proposed Rulemaking (NPRMs).

### Can't make the webinar? No problem!

Webinars will be archived for five months after the live event, allowing registrants ample time to view each webinar. All webinars include a live video component of the presenters.

### How to add or delete a webinar package on your invoice.

**To add the package:** Check the "Webinar Package" box on your dues renewal invoice and add $395 to your total. Or, you may request a new invoice from membership@nasfaa.org.

**To delete the package:** If you ordered the Webinar Package this past year, the 2013-2014 webinar package will already be included on your dues renewal invoice. To delete the package, simply cross it off and deduct $395.

### I want to order individual webinars, not the package.

You can still purchase individual webinars throughout the year. The cost per webinar will be $115 for members ($230 for non-members); however, the site license is for ONE computer only.

### Who Should Attend

Although NASFAA webinars are developed for financial aid professionals, others on your campus can also benefit. Invite your colleagues from the admissions, registrar, student services, academic programs, career and job placement, and business offices to watch the webinar with you.
