	Require Shopping Sheet	3					★							★	★			
	Standardize the Award Letter	3														★	★	★

This matrix is not intended to be a comprehensive analytical compilation of the Reimagining Aid Design and Delivery (RADD) reports. Rather, the matrix serves as a general guide that captures and reflects on common financial aid areas and themes. This matrix cannot summarize the granularity of each report, as each contains numerous additional and innovative ideas and are each worthy of a full reading, but NASFAA hopes the matrix will serve in furthering discussions on reimagining student aid's design and delivery.
