**SUPPLEMENTARY INFORMATION:** Pursuant to Section 102(2)(c) of the National Environmental Policy Act (NEPA) of 1969, 42 United States Code 4321-4370h, as implemented by the Council on Environmental Quality regulations, 40 Code of Federal Regulations (CFR) parts 1500-1508, the DoN NEPA regulations (32 CFR part 775), and Marine Corps Order P5090.2A (with Changes 1-3) Marine Corps Environmental Compliance and Protection Manual, Chapter 12, the DoN, after carefully considering the operational and environmental consequences of the proposed action and alternatives analyzed in a Supplemental Environmental Impact Statement (SEIS), announces the availability of its ROD to translocate a population of the federal-listed threatened Agassiz's desert tortoise (*Gopherus agassizii*, hereinafter "desert tortoise") from high- and moderate-impact training areas at the Marine Corps Air Ground Combat Center at Twentynine Palms, California (hereinafter, "the Combat Center"). In its ROD, the DoN has selected the preferred alternative (Alternative 2) from the Final SEIS, which provides for the implementation of a June 2016 Desert Tortoise Translocation Plan. The Plan will guide translocation of desert tortoises in accordance with requirements of a January 2017 United States Fish and Wildlife Service (USFWS) Biological Opinion (hereinafter the "2017 BO," which superseded a previous 2012 BO), and a 2013 DoN ROD associated with the 2012 Final EIS for Land Acquisition and Airspace Establishment to Support Large-Scale Marine Air Ground Task Force Live-Fire and Maneuver Training at the Combat Center (hereinafter the "2012 Final EIS").

The DoN ROD documents why the DoN has chosen to implement the preferred alternative as described in the 2017 Final SEIS. This decision adopts all of the special conservation measures

that were identified in the Final SEIS to avoid or minimize adverse environmental impacts from the preferred alternative. The ROD also includes descriptions and discussions of the anticipated environmental impacts of the proposed action, and responds to substantive comments received since the Final SEIS was released.

The BLM, which served as a Cooperating Agency during preparation of the SEIS, adopted the SEIS and prepared a separate ROD regarding the SEIS actions proposed on BLM-managed lands. The BLM's involvement as a cooperating agency in the development of the SEIS was triggered by its current jurisdiction by law and special expertise over a portion of lands considered for translocation of desert tortoises. The BLM has unique knowledge of the public lands under its management and has the expertise essential to help evaluate appropriate parcels of land to meet translocation requirements. The BLM conducted frequent coordination with DoN throughout the SEIS process. The BLM ROD explains the rationale for its independent selection of Alternative 2 (Preferred Alternative) of the SEIS. The BLM decision is subject to a 30-day appeal period commencing with the publication of this Notice. A party that is adversely affected by the BLM's decision may file an appeal in accordance with the procedures in 43 CFR part 4.

This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. *Title of Collection:* William D. Ford Federal Direct Loan Program—150% Limitation.

*OMB Control Number:* 1845-0116.

*Type of Review:* A revision of an existing information collection.

*Respondents/Affected Public:* State, Local, and Tribal Governments; Individuals or Households; Private Sector.

*Total Estimated Number of Annual Responses:* 7,770,494.

*Total Estimated Number of Annual Burden Hours:* 282,713.

*Abstract:* These data will allow the Department to calculate the borrowers maximum eligibility period, subsidized usage period, and remaining eligibility period as described in 685.200(f)(1)(ii)–(f)(1)(iv), determine whether the borrower is eligible to receive an additional Direct Subsidized Loan, and ensure that borrowers do not receive Direct Subsidized Loans if they are no longer eligible to receive a Direct Subsidized Loan under 685.200(f)(2). The Department will determine whether the borrower is responsible for accruing interest on their previously received Direct Subsidized Loans. To ensure that the Department has the information to necessary to make that determination, institutions will be required to report additional information to NSLDS. For example, institutions will be required to report: The CIP code and the credential level for the program in which a borrower is enrolled; the length of the program in academic years, weeks, or months (consistent with current institutional reporting in the COD System); and a more detailed enrollment status of the borrower (e.g., full-time, three-quarter-time, half-time, or less-than-half-time). These data will allow the Department to determine whether a borrower who is not eligible for additional Direct Subsidized Loans is responsible for accruing interest on his or her previously received Direct Subsidized Loans. The regulations implement a new statutory requirement that significantly limits a borrowers eligibility for Direct Subsidized Loans and potentially results in the borrower becoming responsible for accruing interest on existing Direct Subsidized Loans. Under section 485(l) of the HEA, which requires that borrowers be provided with entrance and exit counseling on the provisions governing federal student aid, institutions will be required to revise the entrance and exit counseling provided to borrowers. For entrance counseling, the added counseling requirements under 685.304 will require institutions to explain the new provisions to borrowers.
