

with U.S. threat data. Releasable technical manuals for operation and maintenance are classified CONFIDENTIAL. Releasable technical data (technical performance) are classified SECRET. The system can be programmed with threat data provided by the purchasing country.

d. The U.S. Army will provide the RT-1749 exportable version of the AN/ARC-220 radio. This radio is fully digital and made specifically for rotary wing applications allowing crew members to communicate at non line of sight distances.

e. The AN/PYQ-10 (C) Simple Key Loader (SKL) is a ruggedized, portable, hand-held fill device used for securely receiving, storing, and transferring electronic key material and data between compatible end cryptographic units (ECU) and communications equipment. It supports both the DS-101 and DS-102 interfaces, as well as the Crypto Ignition Key and is compatible with existing ECUs.

f. The MX-15 HDi imaging system is a multi-sensor, multi-spectral imaging system with a range of features and benefits to include long range laser illumination. The MX-15 HDi is ideal for medium-altitude covert Intelligence, Surveillance and Reconnaissance (ISR) and Search and Rescue (SAR) missions, and it can be integrated into aerostat, fixed-wing, rotary wing and Unmanned Aerial Vehicle aircraft. The MX-15 HDi system can include up to six imaging and laser sensors, HD Thermal Imager, Color Low-Light Continuous Zoom, Daylight Step-Zoom Spotter, Short Wave Infrared (SWIR) Imager, Laser Rangefinder (LRF), and Laser Illuminator (LI). The MX-15 HDi offers superior high-definition imaging resolution from Electro-Optical (EO) and Infrared (IR) cameras. The system boasts user-friendly technologies that improve operator effectiveness such as a color low-light, wide-angle zoom EO imager, and outstanding range performance during limited visibility due to atmospheric, real-time image enhancement for EO day, EO night and IR. This MX-15 HDi imaging system is a highly effective system that utilizes the most recent developments in imaging technology.

2. Software, hardware, and other data/information that is classified or sensitive is reviewed prior to release to protect system vulnerabilities, design data, and performance parameters. Some end-item hardware, software, and other data identified above are classified at the CONFIDENTIAL level.

3. Loss of this hardware, software, documentation and/or data could permit development of information

which may lead to a significant threat to future U.S. military operations. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures or equivalent systems, which might reduce weapon system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that UAE can provide substantially the same degree of protection for this technology as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All of the defense articles and services listed in this transmittal have been authorized for release and export to the United Arab Emirates.

DEPARTMENT OF EDUCATION

[Docket No. ED-2019-ICCD-0136]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Application for Borrower Defense to Loan Repayment Form

AGENCY: Department of Education (ED), Federal Student Aid (FSA).

ACTION: Notice.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, ED is proposing an extension of an existing information collection.

DATES: Interested persons are invited to submit comments on or before January 29, 2020.

ADDRESSES: To access and review all the documents related to the information collection listed in this notice, please use <http://www.regulations.gov> by searching the Docket ID number ED-2019-ICCD-0136. Comments submitted in response to this notice should be submitted electronically through the Federal eRulemaking Portal at <http://www.regulations.gov> by selecting the Docket ID number or via postal mail, commercial delivery, or hand delivery. If the www.regulations.gov site is not available to the public for any reason, ED will temporarily accept comments at ICDocketMgr@ed.gov. Please include the docket ID number and the title of the information collection request when requesting documents or submitting comments. *Please note that comments*

submitted by fax or email and those submitted after the comment period will not be accepted. Written requests for information or comments submitted by postal mail or delivery should be addressed to the Director of the Strategic Collections and Clearance Governance and Strategy Division, U.S. Department of Education, 400 Maryland Ave. SW, LBJ, Room 6W-208D, Washington, DC 20202-4537.

FOR FURTHER INFORMATION CONTACT: For specific questions related to collection activities, please contact Beth Grebeldinger, 202-377-4018.

SUPPLEMENTARY INFORMATION: The Department of Education (ED), in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)), provides the general public and Federal agencies with an opportunity to comment on proposed, revised, and continuing collections of information. This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Application for Borrower Defense to Loan Repayment Form.

OMB Control Number: 1845-0146.

Type of Review: An extension of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 96,000.

Total Estimated Number of Annual Burden Hours: 48,000.

Abstract: The Department of Education (the Department) requests approval of this extension without change of the Application for Borrower Defense to Loan Repayment form

(“Universal Borrower Defense Form”) to ensure that all borrowers have a consistent platform to petition for relief, and to facilitate the Department’s receipt of clear and complete information necessary to process applications efficiently. This form will facilitate processing claims from student borrowers who believe that they have a Borrower Defense claim regarding their Federal Loans. The form will provide borrowers with an easily accessible and clear method to provide the information necessary for the Department to review and process claim applications efficiently. A successful Borrower Defense claim would provide a full or partial discharge of a borrower’s loans, and if appropriate, reimbursement of amounts previously paid.

Dated: December 23, 2019.

Title of Collection: 2016/20 Baccalaureate and Beyond (B&B:16/20) Full-Scale Study.

OMB Control Number: 1850–0926.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: Individuals or Households.

Total Estimated Number of Annual Responses: 34,682.

Total Estimated Number of Annual Burden Hours: 10,435.

Abstract: The National Center for Education Statistics (NCES) conducts the Baccalaureate and Beyond (B&B)

studies. The B&B studies of the education, work, financial, and personal experiences of individuals who have completed a bachelor’s degree at a given point in time are a series of longitudinal studies. Every 8 years, students are identified as bachelor’s degree recipients through the National Postsecondary Student Aid Study (NPSAS). B&B:16/20 is the second follow-up of a panel of baccalaureate degree recipients identified in the 2015–16 NPSAS, and part of the fourth cohort (B&B:16) of the B&B series. NPSA:16 is the base year for B&B:16 follow-up interviews in 2017, 2020, and 2026 (anticipated). B&B cohorts prior to B&B:16 were approved under OMB# 1850–0729. The B&B:16 cohort is submitted and reviewed under OMB# 1850–0926. The primary purposes of the B&B studies are to describe the post-baccalaureate paths of new college graduates, with a focus on their experiences in the labor market and post-baccalaureate education, and their education-related debt. B&B also focuses on the continuing education paths of science, technology, engineering, and mathematics (STEM) graduates, as well as the experiences of those who have begun careers in education of students through the 12th grade. Since graduating from college in 2014–15 for the field test, and 2015–16 for the full-scale study, members of this B&B:16 cohort will begin moving into and out of the workforce, enrolling in additional undergraduate and graduate education, forming families, and repaying undergraduate education-related debt. Documenting these choices and pathways, along with individual, institutional, and employment characteristics that may be related to those choices, provides critical information on the costs and benefits of a bachelor’s degree in today’s workforce. B&B studies include both traditional-age and non-traditional-age college graduates, whose education options and choices often diverge considerably, and allow study of the paths taken by these different graduates. B&B:16/20 panel maintenance activities were cleared in July 2019 and are currently scheduled to continue through February 2020. This request is for the full-scale study student interview data collection scheduled to take place from July 2020 through March 2021.

Dated: December 23, 2019.
