

David Alexander

Statement of Candidacy

Representative-at-Large

Having the privilege to obtain an undergraduate and graduate degree has afforded my family and I many opportunities. Having firsthand knowledge of obtaining degrees, while being a full-time parent and financial aid employee, I know the definition of support. NASFAA has supported institutions nationally, which allowed them to support current, past, and future students, like myself. Doing my part to make the student life cycle a success is second nature and has been exhibited in many volunteer roles throughout my 16-year career. If selected, I will have the privilege to continue the tradition in the capacity of Representative-at-Large. Having the honor to serve in many vital roles, such as FASFAA President, throughout our State, Regional, and National Associations, I know and have exemplified the commitment needed. Along with association and financial aid office leadership experience, I bring forth positive and efficient results, which will uphold NASFAA's values to the highest integrity. I humbly submit my candidacy for Representative-at-Large.
