## What Data do Applicants Provide on the FAFSA?

**Prior-Prior Year Implementation** 

On September 13, 2015, President Obama announced a change in how and when students complete the Free Application for Federal Student Aid (FAFSA). Families will be able to begin completing the FAFSA on October 1, rather than January. This change more closely aligns the financial aid application process with the admission application process. In order to accommodate this earlier filing schedule, the FAFSA will collect income information from two years prior to the academic year for which the aid is intended (*Prior-Prior Year*), rather than the previous year. The new process begins in October 2016 for the 2017-18 award year. This chart shows which data elements will likely be affected by the change to prior-prior year income on the 2017-18 FAFSA, to the best of NASFAA's knowledge.
